EXPERIENCE

Graded — *Creator*

SEPTEMBER 2015 - PRESENT

Graded is a mobile app (iOS and Android) that allows students to check their grades without the hassle of using the existing grade book website. Graded currently has more than 8000 daily active users. Made with: HTML5, AngularJS, CSS3, JavaScript, Apache Cordova, Python 3, Flask and Microsoft Azure

Nepris Inc — *Intern*

JULY 2014 - AUGUST 2014 AND JULY 2015 - AUGUST 2015

Nepris is a cloud based platform that gives teachers ability to find, match and invite industry professionals to virtually connect with their classroom. My responsibilities during internship included design of web pages using HTML5, CSS3, jQuery, and JavaScript. I also contributed to the creation of Nepris' hybrid mobile app using Angular JS, HTML 5, JavaScript, Apache Cordova.

HowlBits — *Creator*

JUNE 2014 - AUGUST 2014

I created HowlBits.com to give training to 6 students in Graphic Design, Animation, and Web Design using Gimp, Blender, HTML5/CSS3, JavaScript.
